The SEALCO complete self-contained, mobile SEWER AIR TESTING SYSTEM.

FIELD PROVEN FOR FUNCTION AND DURABILITY

Sealco’s Sewer Test System makes testing sewers as painless as possible. All components have received extensive field and laboratory evaluations to determine their acceptance in a “Sealco System.” From the rubber on the sewer plugs to the paint on the trailer, all Air Test System features are field-proven and engineered for convenience. Sealco provides you with a piece of equipment that will do the job faster and better than ever before with minimum expense and maximum performance. Check out our features and you will surely agree, the “Sealco System 200” is your best buy. Remember, when you buy “Sealco” you get quality, efficiency and experience backed by the most comprehensive warranty in the business. With Sealco products, our name, reputation, and expertise insure your complete satisfaction.
